

◀ Dear colleagues ▶

We are taking part in the CovidSurg cohort study

There is an urgent need to understand the outcomes of COVID-19 infected patients who undergo surgery. Capturing real-world data and sharing international experience will inform the management of this complex group of patients who undergo surgery throughout the COVID-19 pandemic, improving their clinical care.

Inclusion criteria:

1. Patients undergoing ANY type of surgery in an operating theatre, this includes obstetrics AND
2. Either before or after surgery:
 - (i) lab test confirmed COVID-19 infection, or
 - (ii) clinical diagnosis of COVID-19 infection (no test performed).

If you have a patient who meets these criteria, please contact your local CovidSurg team via: _____ or record the hospital number on the record sheet in the theatre office. Thank you.
