**NIHR GLOBAL HEALTH RESEARCH UNIT ON GLOBAL SURGERY
ANNUAL PRIORITISATION WORKSHOP**

ACCRA, GHANA

Thursday 7 to Sunday 10 November 2019

We are delighted to welcome you to the annual Prioritisation Workshop of the NIHR Global Health Unit on Global Surgery. This year the Unit has jointly organised this event in partnership with the Ghana College of Physicians and Surgeons, the University for Development Studies, School of Medicine and Health Sciences and the Tamale Teaching Hospital in Ghana.

Our Annual Workshop is the key platform for the Unit to identify its research priorities, and discuss progress with all collaborators. The main objectives of the 2019 prioritisation workshop will be to review progress made on ongoing research, provide updates on the 2018 prioritised topics, and prioritise the next set of research topics. This forum will also deliver bespoke training programmes, which we hope you will find worthwhile.

The main objectives of the 2019 Prioritisation Workshop are:

- (i) Updates for ongoing research – GS3, FALCON, CHEETAH, CRANE, PENGUIN.
- (ii) Microstudies 2018 update and 2019 selection.
- (iii) Guideline II development – Emergency Surgical Care.
- (iv) Planning future research, including Community Engagement and Involvement and Health Economics.
- (v) Educational and training sessions; Introduction to Statistics, How to Write a Paper, Healthy R.
- (vi) 1:1 meetings with Programme Manager and Senior Trial Manager.

We hope that you have a productive and enjoyable time in Ghana and thank you for your contribution to this workshop.

Yours Sincerely,

Professor Dion Morton
Barling Chair of Surgery
Chair, NIHR Global Health Research Unit
University of Birmingham

Yours Sincerely,

Professor Stephen Tabiri
